

**Christ (Deemed to be University)  
School of Commerce, Finance & Accountancy  
Department of Professional Studies**

The Department of Professional Studies seeks to develop courses and programmes of study that provide an excellent experience for students to learn, discover and fulfill their academic potential, and offer opportunities for students to be 'co-creators' of knowledge.

The Department would like to set new standards in the field of Commerce and Management education by integrating the syllabus of international professional bodies into the undergraduate curriculum. The policy for curriculum designing follows the basic rule of overall professional development of the student by adopting latest teaching & learning techniques and methodology. The following are the highlights of Curriculum designing of the Department of Professional Studies.

**CURRICULUM ASSESSMENT AND REVIEW PROCESS**

The Department of Professional Studies abides by a well-defined process of curriculum development for all its undergraduate and postgraduate programmes. The Curriculum Development Committee (CDC) takes due care at every stage of this process, to ensure that all relevant stakeholders are consulted, their views obtained, and then appropriately incorporated into the curriculum. One of the significant curricular reforms led by the Department of Professional Studies in the field of commerce is not only the platform provided to enable students to pursue professional courses alongside their undergraduate programmes, but also the streamlining of the coverage areas of the two.

Any new programme developed by the department is in response to a lacuna or opportunity identified in the existing academic setup at the time. Inputs on such lacunae/opportunities are obtained by way of informal discussions with relevant experts from the industry and professional bodies, among others. Thereafter, the curricula of comparable programmes offered within/outside the university are identified as a starting point for the development process. At this stage, the unique characteristics or differentiation factors of the proposed programme are defined.

An annual review of the existing curricula of all programmes is undertaken for the purpose of identifying gaps therein, if any. The gaps are identified with reference to the stated objectives of each programme. As part of this process, detailed feedback is obtained from adjunct/external

**Department of Professional Studies**

faculty members, industry experts, current students, and alumni. Based on the inputs and feedback obtained from the various stakeholders, the syllabus is revised in a meeting of the Board of Studies.

**Feedback on Curriculum - Analysis 2023-24**

Feedback From	Total No of Students/ Teachers/ Employers/ Alumni/ Parents	Satisfied%	Good %	Excellent%
Students	1072	22%	38%	40%
Teachers	73	4%	20%	76%
Industry	5	20%	20%	60%
Alumni	21	11%	25%	63%
Parents	20	0%	29%	71%

**STUDENTS**
