Feedback

Professional Courses Pursued and Level Completed *

Pursuing company secretary and completed the foundation level.

Other programmes completed such as *

- SAP
- Advanced Excel
- Six Sigma
- Big Data Analysis
- Portfolio Management
- Tableau
- None
- Python
- Other(Please Specify)

State your primary objective of pursuing the current programme *

The primary objective to pursue BCOMP was to finish my company secretary course and get a wide range of knowledge on finance.

Has your time at the Department been intellectually enriching *

- Yes
- No
- Marginally

The syllabus is capable of adding value to the students in terms of: (Least 1; Most 5) *

	1	2	3	4	5
Skills	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Concepts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Knowledge	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Analytical Abilities	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Creative Thinking	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

The Syllabus takes care of the following requirements(1- Strongly Disagree; 5- Strongly Agree) *

	1	2	3	4	5
Local	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Regional	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
National	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Global	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

The syllabus enables the students to analyze a given problem and identify the necessary solutions. *

4

5

Very Good

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Speaking of the syllabus, it is very complicated in the 5th semester and all the subjects taught are tough. In order to have a smooth flow of knowledge, the subjects in the 5th semester, could be divided with last four semesters so that, it doesn't import all the knowledge at once into the students.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

So far, the progression has been good with the efforts of all the faculty members.

2) Soft Skill Development *

The course has developed utmost confidence in me which targeted me to take up responsibilities. So, overall, the course is of a great favour to me for my further career.

3) Industry Readiness *

This programme has given me confidence but has not prepared me well to enter a corporate world. The respective training wasn't provided when we had to take up university placements. Hence, industry readiness was more of a personal effort.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

The current curriculum is perfect. But, it would be great if the syllabus could be equally distributed among different semesters as some semesters feel really hectic.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

The syllabus covers almost all the basic and some advanced concepts required for Actuarial Science. So it adds a lot of value.

2) Soft Skill Development *

Very Good

3) Industry Readiness *

Excellent

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

More practical finance and tax oriented subjects should be given more weightage. Workplace skills like MS Excel, mail writing, professional communication should be included. Fintech and blockchain based topics should be added with experienced faculties in that domain. Industry leaders and guest lectures should also be conducted more often.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Bhagwati Education team delivers the best training for CA Intermediate. Subjects based on finance should be handled by CA or CFA faculties.

2) Soft Skill Development *

Needs to more focused on. Syllabus has to be revamped with changed scenario post covid.

3) Industry Readiness *

Skills like MS Excel and other tools, SAP ERP, Professional communication should be included. Syllabus and discussions should be based more on recent advancements and happening. As I am currently working wity Grant Thornton, I find this points can surely place us a level ahead.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Was very effective. Faculty was very supportive and helpful in academic progression

2) Soft Skill Development *

Small class strength gave everyone the opportunity to play a role in organising department events. Teachers also helped with soft skill development in class

3) Industry Readiness *

The various meetings with industry experts that the department organised quite often were very helpful. The curriculum is also structured to help us develop skills that are in demand.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Helps us as students to both understand and analyze contents in each subject through interactive learning and projects.

2) Soft Skill Development *

The department provides projects and assessments that help us improve our soft skills through practice

3) Industry Readiness *

The course has given me practical knowledge through assignments and also given me exposure through business fests and programmes

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Theoretical knowledge delivered very well, but if practical experience is added it would make the students more interested.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Good

2) Soft Skill Development *

No soft skill development, hardly discussion happens in class. Subjects like commerce and Indian society, is an absolute waste of time and energy for students pursuing rigorous course like CA. The college can plan on dedicating those hours to discuss laws, intention behind tax laws case studies relevant to auditing, conduct of mock audit etc. All this will help develop soft skills.

3) Industry Readiness *

Yes, college trains us with knowledge required, other skills are to be acquired by students on their own will.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Course on guiding students to become an active investor Ex: Stock market, mutual fund courses and also if possible providing E-certificates on completion on these courses.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Academic progression from one semester to the other is good and in line with the CA course. Although certain topics of certain subjects needs to be revised to be in line with the current application of the same.

2) Soft Skill Development *

Soft skill development is not very high in this course as the subjects do not provide a scope for it. Subjects can include practical application of the same for better understanding and being future oriented.

3) Industry Readiness *

The course helps in being industry-ready although certain soft skills which are required to excel in the industry are missing. Theoretical aspect of the course is better to none which is very helpful in the industry.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

My experience for the past two year academically has been excellent. The syllabus and portions for each semester kept upgrading and I have learnt a lot more new subjects. The faculties have made it interesting in their own way. So I dont have areas that can be added or removed. The current curriculum is great.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Sem 1- 80.8%, Sem 2-78.2%, Sem 3- 79.38% , Sem 4- 71.29%

2) Soft Skill Development *

Communication, Time Management, Team work, Responsibility, creative thinking.

3) Industry Readiness *

Yes

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Can add more practical subjects and courses. Technical skills need to be emphasised on a little more as they aren't touched upon.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

I've improved greatly academically, so the course is great in that aspect

2) Soft Skill Development *

Many CIAs done in class help us develop our soft skills

3) Industry Readiness *

The course needs to have more technical elements (R Programming, Excel, Python etc.) for us to be more industry ready

Very Good

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

1. The timeline of current semesters are not in line with the actuarial exam dates. Actuarial exams happen every September and April. It'll be great if the portions can be completed before this so we can appear for the exams immediately after that.
2. Currently each subject is divided into 2/3 semesters. Maybe the curriculum and duration of subjects can be increased in a particular semester so we finish the syllabus before the next Actuarial exam date.
3. Mock exams for complete syllabus. Currently we give university exams only for half or one third syllabus of a particular subject.
4. If possible, introduce Excel and R programming for CM2 and CS2. I've heard that R in CS2 is tough.
5. For some subjects (CB2, CM2), we haven't solved much of past paper questions in class. It'll be great if Teachers guide us in solving questions and then give more for practice.
6. VIVAs are really useful. The kind of questions which Teachers ask helps us expand our horizons and learn better. If possible we could have more of them even though offline classes have started.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

All Professors are really knowledgeable and experienced. Classes are amazing and they all explain so well. The semester wise progression is a lot and the overall syllabus covered in 2 years helps us in clearing the core technical papers and some specialisation papers of Actuarial science.

2) Soft Skill Development *

Group CIAs help us in developing various soft skills like leadership, team work, etc.

3) Industry Readiness *

1. Data analytics course may be added to train the students with the tools required to be industry ready. Currently only Excel is taught. VBA, Macros and other relevant tools may also be taught.
2. Apart from GD and interview training, we could have sessions on resume writing as well.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

It would be so much better if the finance subjects are given more importance in the first few semesters itself, rather having all the major finance subjects in 5th and 6th sem. Dividing them equally accordingly in all the semester, will be much better. Taking feedback every semester and following it up would be appreciated.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Good

2) Soft Skill Development *

Good exposure and lot many opportunities to improve.

3) Industry Readiness *

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

More skills training and a more updated selection of subjects and syllabus that are in line with the industry would help strengthen the current curriculum more.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

It has been good. The syllabus can be tweaked up a bit.

2) Soft Skill Development *

The training sessions that were conducted were really valuable.

3) Industry Readiness *

After taking up the course, I definitely feel more confident about transitioning to the industry.

More practical projects that could help understand the working of the corporate world outside.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

I believe the lockdown did reduce the quality of education or atleast the understanding of the material thought a little bit

2) Soft Skill Development *

The course has helped me a lot to better my pre-existing skills in soft-skills and has provided me with a holistic growth

3) Industry Readiness *

I do feel like I have a lot more to learn and am not quite sure if I'm as industry ready yet. While my knowledge about various concepts is up to date, I'm yet to see how there's work in real-world scenarios

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

It would be much helpful if atleast the basics of core subjects(eg., Finance) could be taught in 4th sem itself rather than just unloading everything at once in the 5th sem

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

The current curriculum is perfectly related to the professional courses as well, which is helpful and gives an advantage in both courses.
.....

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

In the pandemic, academic progression has been better. I have advanced well in the professional course in this duration.

2) Soft Skill Development *

The advanced excel, and tableau classes have greatly improved my skills.

3) Industry Readiness *

Overall, the entire course has given a good overview of the industry and I feel like I am better prepared to enter the industry.

If more data analytical subjects can be added it would be really helpful as the current and future trend is moving in that direction.
.....

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

The academic progression has been steady and an enriching experience. Most of the subjects were relevant and quite apt for the certifications we are pursuing.

2) Soft Skill Development *

This too has been steady, however it could be organised better in my opinion. However, overall it has been quite effective.

3) Industry Readiness *

This has been the most helpful the course has equipped me to face some of the early challenges that the industry may throw at me . Hence, in this area it has been really effective.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

There has been clear signs of an increasing academic progression. Better results as compared to first year

2) Soft Skill Development *

Soft skills have developed immensely. Have been able to see differences when compared to how it was in first year and final year.

3) Industry Readiness *

Has become more aware about the industry which makes me more ready to go out there.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Make the syllabus compatible with excel and other corporate relevant skills. The quantitative applications in business subject which is a part of the 2nd semester can be moved to 4th semester with concepts mapped to CFA Level 1 quants section (in terms of topics and depth of topics). Subjects like FAR, quants, fixed income, etc., can be taught and tested on excel to make them more relevant to industry standards. Introducing macroeconomics to the curriculum could help CPA and CFA aspirants.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Decent

2) Soft Skill Development *

Could be improved

3) Industry Readiness *

Could be improved

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

There can be more focus on practical application of concepts studied

2) Soft Skill Development *

There are a lot of opportunities to take up courses or extra classes but the schedules sometimes create a conflict

3) Industry Readiness *

Fairly prepared but need some practice to familiarise with application of concepts

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Adding more CFA related subjects to the first 2 years of the curriculum. Removing subjects like CAIS and Operations management as they do not align with the CPA or CFA curriculum. The math subject we had in 2nd semester should be more integrated with the CFA Quants. The FM subject should also be more integrated with the CFA curriculum for corporate issuers. We should have also had portfolio management as that is also a part of the CFA curriculum.

Hoped for more integration of the CFA curriculum in our first 2 years of the program, unfortunately that didn't happen. Hope changes can be made for the future batches.

Bring in Quants as a part of the syllabus from an earlier stage, making it easier to take up the CFA exam in the third year.
.....

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Subjects including elective courses were relevant.

2) Soft Skill Development *

More courses could have incorporated.

3) Industry Readiness *

Given that we have had many opportunities for internships, the transition from student to a working individual is smooth.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

1. Syllabus can be made more compatible with excel, tableau and other corporate relevant skills.
2. Practical subjects like FAR, quants, Fed Tax, Taxation, Fixed Income, etc., can be taught and tested on excel.
3. Quantitative Applications in Business can be moved from semester 2 to semester 4 so that it is closer to CFA dates. The topics covered and their depth/level of difficulty can be matched with CFA Level 1 to help CFA aspirants better.
4. Trading and investing in financial markets can be made a part of elective subjects.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Good and effective

2) Soft Skill Development *

Could be improved with more skills right from first semester

3) Industry Readiness *

Decent with internship opportunities but could be better in terms of soft skill development

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

More importance can be given to incorporating case study based questions scenarios to ensure that students can analyse the case and give solutions based on their analytical skills. Every semester, students can be given training in various courses and programmes such as tableau, python, excel, etc to ensure that students have expertise in at least 4 to 5 courses, which would provide them an edge in the business world.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Academic progression is effective as it covers various areas and subjects important for the course.

2) Soft Skill Development *

Soft skill development is effective

3) Industry Readiness *

Industry readiness can be improved via case study based competitions

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

As of now the current IF curriculum is not feasible at all. CPA and CFA are mutually exclusive professions and having them in the same course is not beneficial. Even in CFA, out of 10, hardly 5 subjects are covered which doesn't justify the cost of the course whereas even external foreign prep providers charge only 20k rupees.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

As mentioned CPA and CFA are conflicting professions. There is no logic to the course. Even in CFA, not all subjects are covered in the curriculum. Foundational subjects like quant which lay a platform for other subjects are not part of the curriculum.

2) Soft Skill Development *

There is enough soft skill development. There are good opportunities through fests and theatre to improve soft skills. No complaints.

3) Industry Readiness *

The internship opportunities have a good impact on the student and are to be appreciated.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Major syllabus overlaps within and across semesters. No clarity in material followed. Sometimes we followed ACCA, sometimes CFA and sometimes ICAI which all have different approaches and regulations. No institutional access was provided to softwares required to complete mandatory research. Free student access was utilised for the subject Research methodology and once it expired students had a difficult time arranging for multiple laptops to do their researchwork. Lastly, please do add some sort of software/ digital training apart from visualisation tool power Bi such as VBA macros, Excel, Python or R. It is lacking in the curriculum but is highly required in the industry.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Good and timely.

2) Soft Skill Development *

Not many sessions on this and limited opportunities.

3) Industry Readiness *

No. Mostly theoretical curriculum.

.....

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Syllabus is helpful and is knowledgeable. Equity and bonds as a subject should be introduced. Practical and case study based learning is more important as compared to theoretical learning.

2) Soft Skill Development *

Overall improvement in soft skills has been done.

3) Industry Readiness *

More of practical knowledge should be there and there should be more focus on model based learning which will help to become industry ready.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

The academic progression is effective in terms of the syllabus. The syllabus is well designed to meet the industry standards. I have improved my knowledge in terms of Investments and Finance.

2) Soft Skill Development *

Soft skill development is been taken care in the classes. With a lot of presentations and seminars to be done as part of the curriculum soft skills and communications skills are thought.

3) Industry Readiness *

The program is well designed to suit the industry readiness with including internship as a part of the curriculum. We also have learnt Power BI as a part of the curriculum which is very much helpful.

More softwares can be introduced related to data analysis

Classes on equity market stock market can be added

Also I wanted to study portfolio management

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

I'm able to add up on my skill it's just that Online thing was creating a huge distraction for me but there was no solution I know

2) Soft Skill Development *

Time management and management skills is one thing that I can surely say I have developed. Also got some confidence in presenting myself.

3) Industry Readiness *

Technical and fundamental analysis for trading and investing- price action is one of my interest and I have worked upon it to my full extent. I'm preparing for FRM again and will surely be clearing this time.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Everything that is there right now is wonderful and extremely helpful for the students, in making them industry experts and improving their soft skills. More activities like debates, etc could be included.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

The subjects being taught are very relevant and important in helping the students gain thorough knowledge about the industry and the field they want to pursue. Teachers explain topics in very engaging ways using real life examples to ensure our foundation is strong. Hence academically, we are all progressing with a stronger understanding and awareness of the various aspects of the industry.

2) Soft Skill Development *

CIAs include giving individual and group presentations in class which help the students to greatly improve their communication skills and confidence. Other activities conducted in the department develop team building skills and collaboration.

3) Industry Readiness *

The programme has been designed in such a way to ensure that the students are industry ready and all set to step out as professionals.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

BBA being a course with a finance specialization, I would prefer to get more exposure and hands on experience with real work scenarios than just being taught with theoretical concepts. Business Cases, live examples, and how each task is done In a corporate environment, is bleakly shown in the course, and only a few outstanding professors are able to deliver some, in the limited time frame. Students should be given a chance to choose the subjects they want right from 2nd year, as some subjects are more or less not even relevant to the specialization, and for instance being operations management which is more of an engineering based subject. It's totally understandable that a holistic approach is followed at providing the overall exposure to students, however a lit more flexibility on the choice of subjects would be appreciated. Live project inclusions, and hands on study approach especially in subjects like portfolio management etc would be highly desired.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Academic progression from the course is decent.

2) Soft Skill Development *

Soft skill development, have been an integral part of the curriculum, however, there are delays in bringing skill enhancement classes like Tableau to all students, as it's been done in batches. No information on how it's conducted, when the next batch will be, which students belong to which batch, etc has not been conveyed.

3) Industry Readiness *

In terms of conceptual knowledge, it is proficient, but when it comes to application, it may not be as useful in all cases.

Considering the fact that our syllabus is integrated with ACCA, much of the P level papers could have started in the 2nd semester, it would have given us a better base to pursue ACCA more efficiently. Application based courses like tableau and excel could have started earlier in the second year as it would have helped us in our internships as well.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

More emphasis on ACCA portions in the first few semesters, so spreading the subjects more thoroughly rather than keeping most of them for later is very helpful and keeps the students vigilant in their studies and knowledge.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

It is effective

2) Soft Skill Development *

It is useful

3) Industry Readiness *

It is useful

A more practical and analytical focus

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

There are a lot of overlapping topics across subjects, particularly in the entrepreneurship elective. Overall, there is a decent coverage of topics, but not necessarily in an effective manner.

2) Soft Skill Development *

Good development of soft skills, particularly Advanced Excel which is widely used in the industry.

3) Industry Readiness *

The programme provides a good knowledge advancement, but not in an interesting manner of teaching.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

It is going at a good pace.

2) Soft Skill Development *

Opportunities are provided, but the university needs to push students to attend soft skill development sessions conducted.

3) Industry Readiness *

The whole course gets the students fairly industry ready through the syllabus, internships, faculty, etc.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Since the world is moving more steadily towards globalisation due to the impact of pandemic (also bridging the geographical divide), better focus can be given on global issues and the ways in which we can reap advantages.

Also, a bit of knowledge on freelance/gig economy and the ways to pursue it would be beneficial for the students.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Instead of making applications such as Excel/Python as additional qualifications or certifications, they could be a part of the curriculum itself as DSE or an elective.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Academic progression of the programme is good, however could be timed with the ACCA papers better.

2) Soft Skill Development *

The department and the programme have taken steps to ensure soft skill development in many different ways, and it is commendable how this has continued even during the pandemic and online classes.

3) Industry Readiness *

Although I cannot be entirely sure yet whether I am ready for the industry or not, I'm sure that the department and the programme has put in a lot of effort into developing industry readiness by means of seminars, talks, events, and the curriculum itself.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

The syllabus which covers foundations of acca is sometimes not in sync with the acca progression, hence the subjects can be interchanged accordingly to have a solid foundation before appearing for professional papers. Some subjects which have similarities to 12th grade like marketing and hr can be covered in the first year.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

The programme has been effective in terms of academic progression since it covered a wide range of subjects under the bba and finance area. However, sometimes gaining an in depth understanding of the subjects has been difficult since a lot is to be covered in a limited span of time

2) Soft Skill Development *

The curriculum is very effective from a soft skill development point of view since a lot of the internal assignments, activities of the department as well as societies of the department are focused on developing such skills and the department highly encourages student participation in the same.

3) Industry Readiness *

Having professor's that have or in the past have had industry experience has contributed significantly to industry readiness. Further, the hard skills courses like excel and tableau as well as interactive sessions with professionals in the industry have also played a role in becoming industry ready.

More global relevance.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

Its a lot more Knowledgable. I wish all this new content was not cramped into the final year. I wish some of this content wouldve been covered in the 2nd year to avoid information overload in the 3rd year.

2) Soft Skill Development *

There is no proper system in place to follow up on the certification examination of these courses or even to ensure proper classes are conducted for the same.

3) Industry Readiness *

Some teachers focus on this and hence we learn about industries. The curriculum by itself has sections which help the same.

It has to be made sure that the exams don't clash by any chance so that it becomes easier for students to focus

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

My academic progression has been quite good with an average of above 80%.

2) Soft Skill Development *

I have learnt some of them like excel which will definitely enhance my way of working etc..

3) Industry Readiness *

This program as a whole, has been very helpful in terms of understanding the real world and the way in which entire industry works.

Based on your experience, identify area/s which can be added/removed to strengthen the current curriculum. *

Personally, I feel like we could add more CFA curriculum during our first two years like for example, we had Quantitative applications in business in our 2nd semester and it was just basic math and statistics that we already learnt in our 10th and 12th grade. If Quantitative methods from CFA curriculum was taught during QAB, it would have given us a head start on CFA Level 1 syllabus. The same goes for Economics from 1st semester as well. Incorporating these subjects from the CFA curriculum could give us a head start in our first year itself rather than from our third year.

Your comments on effectiveness of the programme

Provide your general comments on the overall effectiveness of the programme in relation to:

1) Academic progression *

With the wonderful professors that we got over the past 3 years, I have had a really good progression academically. It can be better if we had more concepts taught from our CFA curriculum in our first two years as mentioned before.

2) Soft Skill Development *

Add on courses like advanced Excel and tableau really helped us improve our soft skills.

3) Industry Readiness *

This course has indeed helped us enter the corporate world by offering many internships as well as through classroom learning. But it could be better if the professors could give more real-life examples as to how each concept is used in the corporate world rather than just going through examples given in a textbook.

Satisfied

No comments

-

None.

Professional development 1 could be designed more like PD2.

Students should be asked to take personal therapy in 1st year and not 2nd as it becomes too complex to mentally process yourself and clients .

Research guides should be allotted according to the nature of the study and the expertise of faculty. Quali or quantitative.

Curriculum could include more diverse topics .

Lot of other therapies can be mentioned in curriculum

Average

Not any

The curriculum did not work on my therapeutic and counselling skills and focused mainly on diagnostic skills. I couldn't get better internships because the university had a very strict demand in the number of hours and days which hardly any good internship site agreed to.

I think in total everything is nice but for psychology for PSENG there should have been some lab classes as well for first year students

The curriculum is well designed

Learning has been fruitful.

Satisfied with the courses given to us

The course provided to us has never failed my expectations. My reason to join this institution was primarily the course and excellent syllabus.

Ensure representation of queer community, formulate CIAs to include beyond the binary genders.

Practical workshops on theories of counseling could be added. Training for suicide risk assessment and treatment could also be added to the curriculum.

Overall curriculum is good

Some interactions will help.

the curriculum for the last semester needs a lot of improvement.

nil

The curriculum has been designed in a well-thought-out and organized way, as it covers almost all aspects of the field and ensures that the lectures have a well-balanced combination of sufficient theoretical background along with their application in real-life settings. I feel that the structured way of representing each topic to be covered under each course is helpful.

It's a very hectic semester with the involvement of psychodiagnosical lab and research, along with the ongoing CIAs, it would be great if we had some time to reflect on our learnings to enrich our knowledge and attention span.

Good course

Need orientation about the internship.

na

Overall it's a wholesome curriculum

More practical work can be included.

Suicide risk assessing and Intervention could be added as well as getting to know the realities of the profession by people in the field, practising could be a good way to prepare us for what might come

Probably taking classes in a social setting "outside classroom" for application basis and a new way to acquire knowledge.

More practical teaching should be there in the classes

Not required

Introduction to Literary theory is too difficult and complex

Would have liked to see more use of current life scenarios, advancement in research etc. to be

Head
School of Social Sciences
CHRIST Deemed to be University
Delhi NCR

part of the course

The structure and plan of course is detailed and goal-oriented which is appreciated however the micromanagement and rigidity of this structure causes for resentment rather than learning

Research should be choice based. Should not persist it on being compulsory for all students since different students have different levels of aptitude in terms of research. And the compulsion of getting the papers published is also practically not plausible as most of us are doing research for the first time. Publication is good but when it gets related to the amount of marks we will be getting, it makes absolute no sense. Reduce the number of CIAs for Research Paper. Research is a creative process and it cannot be done in time lines. A certain amount of deadlines is necessary for the proper execution, but this is just too rigid.

The classes are well organised and informative

It would have been better to have been taught Qualitative Research Methods in our first semester rather than in our second semester as having it at the same time as our research supervision makes it rather difficult to choose our methodologies. There could also be some amount of research supervision in our first semester to make it easier during the second semester with concepts like gap analysis, useful software for research, and review of literature in a more in-depth process.

Furthermore, if students could write their interests in an excel sheet and get their research guides assigned based on that, it could be very helpful for both the supervisors and the students. There could also be certain broad topics pre-determined based on the supervisors' expertise and let the students choose from these topics or provide their own preferences to make it easier.

A curriculum and syllabus related to the knowledge we would need to practice in India would be more helpful as currently a lot of what we are learning is mostly for a western population.

The curriculum is okay but yearly improvements work as well

Its good

the course is well designed and imparted

The overall curriculum provides insight into the various aspects of clinical psychology, and helps us develop skills pertaining to the field. Exposure to case discussions, and role-plays would further enhance the learning .

may be try not to pressurize so much

Satisfied with the content of the curriculum

I wish the workload and the classes could be spread out more evenly to leave more time for self study. other than that, the syllabus and everything is very good

Some of the faculty require to be oriented towards the new challenges that face clinicians such as how to provide adequate support to members of the LGBTQIA+ community, how to provide therapy to assault survivors etc.

It was a wonderful experience , tainted by the strict rules and a few inexperienced faculty.

To have more practicum and practical training

Satisfied with the curriculum.

It is over all good but sometimes too much information become difficult to grasp

nothing

Nope

Explore concepts of inclusivity and exploring intersectionality, political discourse, racism, religion and other social components playing a role in the mental health of an individual

It is well arranged and the mood of teaching is good

no comments

get recent and available books which are available in the library.

Nothing as such.

More practical than just plain theory

We are oriented with the basics of the different fields and options under a specific subject (like Psychology, Sociology and English alike) which does make us familiar with the different areas in general with regard to our options for further studies and job opportunities. But since just one year is left, for us to get our under grad. degrees, we must also be made acquainted with the real present scenarios and conditions when talking about them, like what is the scope and availability of courses for further studies and the scope of further research, since these are still developing fields of study. This, so that we can get some assistance to plan our next steps or at least be near ready to plan the next steps. Thank you.

The curriculum is well formed and structured.

The curriculum provides all the overall aspects required to enhance knowledge.

curriculum is more stressed upon assignments and exam based knowledge

The curriculum is very satisfying and insightful covering all necessary topics one is required to know in the field and provides a deeper knowledge on the subject matter.

Able to understand topics and apply the concepts in real life

The practical subjects like HED, expressive skills and neuroanatomy should be taught in a practical manner and not through ppts like a theory subject.

Some subjects teach at a very fast rate

Can be more practical.

It's hectic but worth the effort

Everything is going well.

Little fast paced.

The burden is not very much on the students but learning is great

Overall it's good

To much burden

The curriculum is interesting and sufficiently informative at the same time

All good

Great

Too much self study

More fun oriented classes

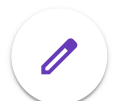

More team assignments need to be given

The curriculum is apt for the courses offered.
