9:30 am - 11 am: Assessment and Feedback

11.10 am - 12 noon: Incorporating UDL and Active Learning strategies in the Hybrid Classroom through our course plans

Day 1: 06.08.2021

The session began with a review of the course plans of the Lavasa campus by TLEC. This was followed by an introduction to learning outcomes, and the learning outcome based curriculum framework.. The participants were also asked to be a part of a few activities which were used to reinforce the notion of outcome based education. The participants were also asked to go through a list of programme outcomes, which were from the programmes offered at the Lavasa campus, and identify the outcomes and objectives; they were further asked to rephrase those statements that were objectives into outcomes. This was followed by a discussion on the implications of a Learning Outcome Based Curriculum Framework. The session concluded with a discussion on backward design and a theoretical orientation on Universal Design for Learning.

Day 2: 07.08.2021

The session began with a reiteration of the terms that are significant in understanding the learning outcomes based curriculum framework. The session focussed on engaging in learners in the Hybrid classroom by understanding ways in which Universal Design For Learning is incorporated in the Hybrid classroom. The participants also discussed ways in which Hybrid classrooms can made engaging for the learners. They were also introduced to the ICAP framework for learning.
