Activity Report

General Information

Type of Activity	Screening
Title of the Activity	A Screening and Discussion of ‘The Elephant Whisperers’ (2022)
Date/s	23rd February, 2023
Time	1:30 pm to 2:30 pm
Venue	Room 605
Collaboration/Sponsor (if any)	Forum of Intersectionality, Diversity, Gender and Inclusivity

Speaker/Guest/Presenter Details

Name	Vanshika Kalshetti
Title/Position	OWN Club Representative
Organization	Christ University, BGR Campus
Title of Presentation	Orphaned Elephants & Humanity

Participants Profile

Type of Participants	Students and Members of FIDGI & Oneness with Nature Club
No. of Participants	50

Synopsis of the Activity (Description)

Highlights of the Activity	<ul style="list-style-type: none">● History of abandoned elephant orphans in South India● Difference between being pro-animals & taking action to nurture it● Poaching & black market threat● Scarcity of designated elephant caretakers per region● Blurred lines between baby elephants and human children● Purpose of life is service, and gratitude; adding color to your own life
Key Takeaways	<ol style="list-style-type: none">1. Elephants are an endangered species that need our attention not just to offer empathy but take concrete action as their unimaginable yet probable absence will disturb the balance of the entire ecosystem, a part of which includes us humans.2. Spreading awareness is good, but a financial or labor-based donation/ service would make a much more significant difference and it is high time that this must happen.
Summary of the Activity	<p>The topic of this session was the <i>Extinction of Biodiversity</i>. It focused on declining elephant populations and the scarcity of good caretakers for the abandoned and young.</p> <p>We began with the launch of OWN as the first ecology/ animal welfare club at BGR campus, followed by the movie screening and a closing message highlighting the upcoming trek as well as other events to be held soon.</p> <p>To specify, there are more species that are closer to extinction than the elephant but the increasing number of abandoned infants without the needed parental presence to grow up well remains a large problem as they're the next generation. The only way to avoid the collapse of their species.</p>

Synopsis of the Activity (Description)

<p>Highlights of the Activity</p>	<ol style="list-style-type: none"> 1. A plantation drive was conducted where students were first taught about the importance of plants in our lives. 2. We brought 5 vegetable seeds and told them how to plant them. 3. They were then taught how to take care of the plants when they grow 4. Later, they were taken to the fields to sow the seeds. 5. From planting, digging, and growing their own food, through to planning, watering plants and tidying; gardening helps teach kids the importance of being organised, whilst reinforcing empowerment and assertiveness.
<p>Key Takeaways</p>	<ol style="list-style-type: none"> 1. Children now have a knowledge of the five kinds of seeds we grew- Tomato, Cucumber, Lady Finger, Pumpkin and Radish. 2. They also know how to plant each of these seeds and taking care of them will make them understand the importance of life. 3. Understanding Basics of Farming 4. A step towards Environmental Conservation
<p>Summary of the Activity</p>	<p>As part of the Service Learning initiative, on 25th November 2022, a session on Basics of Agriculture was conducted by the students of The Department of Media Studies, CHRIST (Deemed to be University), Bannerghatta Road Campus, Bengaluru, in collaboration with Snehasadan. They addressed the issue of academic relevance by connecting academic knowledge, skills and concepts with accomplishing an "authentic purpose" in the school and community. Our belief was that knowledge is not merely transmitted from teacher to learner, but rather is gained by the learner through guided interaction with the environment for which We compiled a list of activities for the duration of our course and ensured that it included all of the required curriculum content for our nation's future citizens.</p> <p>A plantation drive at Snehasadan, Arekere, Bangalore. We got 5 seeds from the Biocenter, Bangalore. The seeds were vegetable seeds and were of Tomato, Lady Finger, Cucumber, Pumpkin and We already designed the poster beforehand. Our activity started at</p>

	<p>4:30. After reaching there, we briefed them about the plantation, the seeds we got and environmental conservation. After that, we moved on towards the fields they have. They already had planted many plants before and even knew how to plant the seeds. The children then got the shovel and other planting tools. There were 19 students today. We tried to evenly distribute the seeds among them. Since they already had knowledge about planting before, we didn't struggle with teaching them how to plant much, we all gathered together and planted the seeds. We then covered the seeds with the soil and watered it.</p> <p>It was a fun and knowledgeable activity. The children were so engrossed in planting the seeds that they didn't feel like leaving the ground. But we asked them to gather together for one last time. We thanked them for being so supportive not just that day but all those 4 months. Well, the plantation drive was a total success according to us. Our efforts didn't go in vain. Hope they will take care of the seeds we planted!</p>

Synopsis of the Activity (Description)

Highlights of the	The event was a screening of the award winning documentary "Ma
-------------------	--

<p>Activity (Objectives)</p>	<p>aka Doodh: Uncovering a Nation’s Dairy Disaster” followed by Q& A session on Veganism and the key ideas of the documentary and a Vegan food tasting for all the participants</p> <p>Maa Ka Doodh: Uncovering A Nation’s Dairy Disaster is an investigative feature-length documentary film about the untold stories behind the success of India’s White Revolution – The World’s Largest Dairy Production and Development Campaign; along with the ethical, cultural, environmental, religious, economic and political influences the consumption of dairy in India has created since millennia. The film also uncovers how India became one of the largest exporters of beef in the world and investigates the impact it has on modern-day India’s socio-economic and political disturbances with the aim of finding sustainable and ethical solutions.</p>
<p>Expected Outcomes and Key Takeaways (bullet points)</p>	<ol style="list-style-type: none"> 1. To show compassion, gentleness and graciousness towards all beings. 2. To be aware of the animal cruelty that exists in the dairy industry 3. To be aware of Veganism and vegan food choices 4. To understand the impact of animal husbandry on environment
<p>Summary of the Activity (Detailed report)</p>	<p>Dr Harsha Atmakuri is a general physician turned animal rights activist. He came to know about veganism when he was working as a medical writer; and as soon as he turned vegan, he began participating in various animal rights awareness campaigns such as public outreaches, lectures, etc. To make the reach wider he began making videos for Facebook and YouTube. As time went on, he decided to quit his job to become a full-time animal rights activist and pursue an investigative journey to make a film about India’s dairy industry to verify and confirm the facts about India’s dairy and beef industry. This is his first feature film project. The motivation for this project came from his spiritual dharma to raise awareness of animal rights issues among his fellow citizens.</p> <p>The S.A.F.E. club of Department of Professional Studies organised the movie screening activity on 01.04.2023. The movie was screened in the room 4105 with an audience of 167 students of commerce fraternity</p>

	<p>participated with great enthusiasm for the movie screening.</p> <p>The movie screening was held with the motive of spreading awareness about the animal cruelty that exists in the dairy industry in India while also spreading awareness of veganism.</p> <p>Towards the end of activity, an interactive session in the form of quiz based on movie shown was conducted with the audience by the volunteers of the club and feedback on the film was received.</p> <p>The collaborating organisation had also arranged for a Vegan food tasting for the audience so that they could experience Vegan food choices first hand</p>

Screening of the documentary Maa Ka Doodh at Christ College - Q&A on Climate Change

Wed, 22 Mar at 10:37 AM

ACH Coordinator <coordinator@animalsaveindia.org>
To: <safeclubdps@gmail.com>

Dear Sir / Maam

ACH Save foundation or Animal Save Movement (ASM), India is one of the forerunning organisations working for climate change and bringing noticeable improvement in the environment and personal health. We are fighting to stop an ecosystem collapse and extend the planet's habitability.

We bring you an earth-changing opportunity at your doorstep.

We are on a workshop drive across the country to screen the multiple Award Winning Documentary 'Maa Ka Doodh', directed by Dr. Harsha Atmakuri. This documentary has won three awards for

*Best Documentary

*Best Director

*Best Film which gives Global message at the Jaipur Film Festival.

This Film has also won an award for the "Best Documentary Feature" at the prestigious Cannes World Film Festival.

We would like to screen this documentry at your Auditorium followed by a short Q & A session on animal, climate and health awareness. The workshop will be conducted by experts from our organisation.

The workshop details are as follows:

Topic - Maa Ka Doodh Screening &

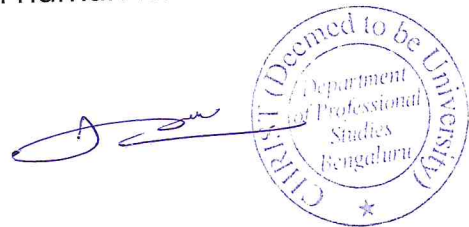

Understanding climate change and its effects on human health.

Venue - Christ College

Duration - 3 Hours

Date - 4th April 2023

Time - 11am - 2pm

Our workshop is specially designed to distribute knowledge in a very interactive way.

Educating young minds is the best way we can bring change and your support will help us reach our collective goal effectively.

We would also like to serve a few snacks to the students after the session. We hope this is fine by you.

Kindly revert back to us with your acceptance & let us know if this date suits you. Be a part of the change we want to bring.

Please do let us know if you have a steady footfall at this auditorium & how invitations work.

We are looking forward to your acceptance.
Feel free to ask if you have any queries.

Animal Climate and Health Save India

International Day of Forests

SDG 15: Life on Land

Department of Professional Studies
CHRIST (Deemed to be University), Bangalore
Activity Report

General Information

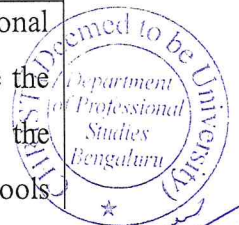

Type of Activity	Plantation Drive
Title of the Activity	International Day of Forests
Date	21 March,2023
Time	9 a.m. onwards
Venue	Government Schools ,Nagasandra, Bagalkunte
Collaboration/Sponsor (if any)	-

Participants profile

Type of Participants	Students
No. of Participants	143 first year students of DPS (YPR)

Synopsis of the Activity

Highlights of the Activity	<ol style="list-style-type: none"> 1. The event brought together the SDG Cell and EST Club, as well as students, staff members, and Nagasandra locals, to collaborate towards a single objective of environment sustainability. 2. The plantation campaign was held not only in govt schools but also in the houses of local residents, urging the community to take an active role in environmental preservation.
Key Takeaways	<ol style="list-style-type: none"> 1. The event was planned in accordance with the UNSDG 15, namely the objective of fostering and protection of all life forms on land. 2. The event intended to raise awareness about the necessity of protecting trees and their role in environmental sustainability.
Summary of the Activity	<p>The SDG Cell and EST Club of the Department of Professional Studies organized a plantation drive on 21 March to celebrate the International Day of Forests. The event was inaugurated by the Dean and HOD, and the drive was conducted in two govt schools</p>

	members participated with enthusiasm, and a large number of saplings were planted. The event aimed to spread awareness about the importance of preserving forests and promoting environmental sustainability. The organizers expressed their gratitude to everyone who participated in the event and hoped to conduct similar events in the future.
Follow-up Plan, if any	The success of the event encouraged the students to take up more initiatives based on UNSDGs in the future.

General Information

Type of Activity	Class-to-Class Awareness Message
Title of the Activity	Earth Day Awareness Programme
Date/s	24-04-2023
Time	11:00 am-12:00 pm
Venue	Classes of first to fourth years
Collaborative Sponsor (If any)	N.A.

Participant profile

Type of Participants	Students from the first to fourth year of SLCU
No. of Participants	1000

Synopsis of Activity

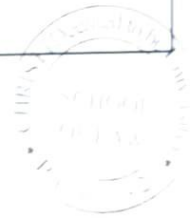

Highlights of the Activity	Class-to-class awareness message was delivered on the occasion of Earth Day highlighting the role of the youth in carrying this year's theme, ' <i>Invest in our Planet</i> ', forward.
Key Takeaways	Students were briefed about the importance of this year's theme and urged to make smarter choices to balance economic development and sustainability.
Summary of the Activity	Earth Day is commemorated every year all around the world as a reminder to preserve planet Earth and urge individuals to choose practices that are sustainable. The theme ' <i>Invest in our Planet</i> ' emphasises on the need of the hour to make wise choices for the betterment of planet Earth. This awareness programme was conducted to nudge students to rethink their investments in terms of quantity, quality and category.
Follow-up plan	Since the event was successful and participants were able to

know more about Earth Day as well as the relevance of its theme. the committee hopes to organise more awareness programmes to delve deeper into the concept.

Description:

The Social Action Summit was the installation of 2022, for CSA's annual flagship event. The panel discussion was directed by the goals of the Centre for Social Action, which revolve around environmental problems, child education and women safety. Multiple classes came to attend the same. The event was preceded by promotional activities to encourage participation from across campus. The main event was a panel discussion among the guest speakers about a sustainable world and what role can be played by everyone to contribute to a greater cause. The guests were specifically chosen to represent each wing of CSA and to bring forth a more interdisciplinary dialogue. The discussion opened up a platform for many to discuss the topics revolving around climate, education and societal betterment. The topics the panellists talked about brought in new perspectives around environmental actions, laws regarding the same and how the economic world plays into this.

A lot of students from liberal arts took part and contributed to this event. Sanya Arora (6BALIB) was the Head of Logistics and Guest Relations. She and her team worked months in advance to curate a list of potential guests, reach out to them and give them an incentive to become a part of the event. Her position allowed her to embellish her marketing, networking and leadership skills. It also taught her more about team management. Isha Vashisht (4BALIB) was a part of the core committee and was responsible for ensuring that all the committees worked in tandem and that the event flowed smoothly. Jyoshita M. (4BALIB) and Aaryan Pandey (4BALIB) also contributed diligently to the event.

Name	Ms.Mridula Vijairaghavan
Title/Position	Environmental Lawyer
Organisation	Wildlife Conservation Trust
Title of Presentation	Trade in Exotic animals

Participant profile

Type of Participants	Students from the third year of SLCU
No. of Participants	

Synopsis of Activity

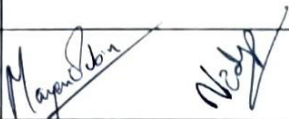

Highlights of the Activity	The interactive session fostered discussion and discourse on the various aspects of trade in exotic wild animals and the Wildlife (Protection) Amendment Bill, 2022.
Key Takeaways	Students were provided a brief on the current legislation protecting exotic wildlife, factors that contribute to the illegal

Seth

	trade of exotic wildlife and how the same can be prevented through awareness, policy and education.
Summary of the Activity	<p>October 4 is celebrated as World Animal Day. The workshop emphasised on spreading awareness about the protection of wild animals. The workshop started with a discussion about the legal reforms regarding the protection of wildlife. The main concern expressed was regarding the alarming increase in wildlife crime. The number of tigers has declined from 80,000 to 3500. The Wildlife Protection Act came into force in the year 1972, which is considered as one of the strongest and most regulated legislation however, it only concerns the protection of native wildlife and lacks clarity regarding exotic animals. The lacunae would be fulfilled by enactment of new legislation, that is, Wildlife Protection Amendment Bill, 2021, that would be implemented by the end of next month. It consists of all the provisions that would regulate the possession, breeding and trade of exotic species.</p> <p>The awareness session also provided insights on why wildlife trafficking is considered as a serious issue. It also pointed out the negative impact of social media on trade of exotic animals as it encouraged worldwide trade on these species.</p> <p>The workshop also provided an understanding regarding the contribution that can be given on the part of responsible citizens. This can be done with the help of better education, awareness programmes and better legislation and policies.</p>
Follow-up plan	Since the event was successful and participants were able to know more about the negative impact of trade on exotic animals and its consequences, the committee hopes to organize more awareness workshops.

Trek to Savandurga Hills
Date: 16 October 2022

The Ecological Diversity Cell under the Department of English and Cultural Studies at Christ (Deemed to be University) Central Campus organized a trek to the picturesque Savandurga Hills. The students were invited for a mesmerizing trekking trip on Sunday, October 16, 2022. The trek was organized with the aim of being closer to nature. This exciting field visit was open to participation for students of both the Central Campus and the Yeshwanthpur Campus. This one-day trek started off at 06:30 AM from the Central Campus. The bus ride itself started off on a good note with everyone relaxing and enjoying themselves after a long hectic week of studying. Everyone was excited about the trek and being in the heart of nature. The trek in itself was a bit difficult but the view was surely worth it. The students were engrossed with the scenery. Both breakfast and lunch were provided. The meals were simple yet delicious. The students savoured every moment spent on the trip. All in all another memorable and successful outing for the Ecological Diversity Cell!

The Ecological Diversity Cell - Short Film Competition

The Ecological Diversity Cell of the Department of English and Cultural Studies, Central Campus, brings forth a Short Film Making Competition for all enthusiastic and budding filmmakers to showcase their skills. The theme for the competition is Climate Change: The Changing Hues of Mother Earth. We invite you all to participate in this unique and creative competition. We shall award the top winners exciting prizes and upload the winning short films to our Youtube channel. Apart from this, the best short films will be screened at our on-campus Film Festival.

The Guidelines for the event are as follows:

- Participants must register in the given registration form on the poster by 15 September 2022.
- All entries must be Theme Oriented.
- Videos submitted past the deadline (11:59 P.M. on 2 October 2022) shall not be considered.
- The minimum duration of the short film must be 5 minutes.
- All submissions must be made via the Google Drive link provided <https://forms.gle/7bmmLN4coUzxEHnA7>. The file name should be in the following format: Your Name followed by your Class (E.g. Shabana_PEP).

Screening of Bee Movie

Nov

2022

Screening of Bee Movie

Greetings!

The students of 5 English Honours invite you to the “Bee Movie” screening as part of our engaging course, Ecological Discourses and Practices. The film screening and discussion will take place on 21 November and 23 November 2022, respectively, from 11:30 am to 12:30 pm. The film is a delightful watch, packed with a dense dose of humour and satire.

It does not end here, though! It provides an exemplary example of a text that critiques the tenets of capitalism and accentuates anthropocentric themes while problematically mimicking and appropriating a capitalistic system in the world of bees. Hence, we invite you to our session that will intrigue you in unexpectedly lively ways.
