

**SCHOOL OF LAW, CHRIST UNIVERSITY**  
**REPORT OF THE INTRODUCTORY PRIMER**  
**GUEST LECTURE ON THE BASICS OF IPR PROTECTION**

**23rd July 2019**

The IPRC identified that there is a need for the entirety of the student body, right from the 1<sup>st</sup> year, to have a comprehensive understanding of the fields of Intellectual Property Rights and Tech Law. In pursuance to this, the first event conducted by the Committee was an introductory primer dealing with the changing dimensions of IPR and of various tech laws.

Two speakers were invited to the primer. The first speaker was Ms. Anjana Rao, an alumnus of School of Law, Christ (Deemed to be University), who is currently practicing in the field of IPR.

*S a D*

A circular official stamp of the School of Law, Christ University. The stamp contains the text: 'CHRIST (Deemed to be University)', 'SCHOOL OF LAW', and 'Bengaluru - 29'. A blue ink signature is written over the stamp.

She was also the former convenor of the IPRC during her time at School of Law. To begin with, Ms. Rao was very effective in providing a strong theoretical base to the students by explaining to them the concept of IPR and the reason why IPR is

accorded.

Sap

Following this, an overview of different areas of Intellectual Property such as patents, copyrights, trademarks, GI and designs were illustrated with unique examples of landmark cases and recent developments in legislations. This provided the students with an understanding of the practical application of Intellectual Property. Other areas of IP such as semi-conductors and plant varieties were also discussed with the students contributing relevant examples for the same. Following this, the second speaker was Mr. Divij Joshi, an alumnus of National Law School of India University. He is currently a research fellow at Vidhi Centre for Legal Policy. Mr. Joshi began his lecture by explaining the scope of law and social conduct. Following this, he explained the scope of tech law in India in the context of global markets. Various concepts of 'Code as law', architecture of IP, social constraints were discussed. Sir discussed various potential research questions in tech law such as 'How technology challenges constitutional mandates?' and Smart Contract challenges. Smart contracts were discussed vis-à-vis competition law. The Aadhar judgement was discussed. Certain issues regarding the grey areas of tech law was discussed with the example of Cambridge Analytica Scam which was used to inform political views.

With an interactive session where students received answers from the speakers to their many questions, the introductory primer came to an end.

The following 300 students attended the event:

1950301 ABDUL RAHMAN T  
1950302 ADARSH A  
1950303 ALAN J
