Question bank provides an opportunity to improve the evaluation, learning and answering skills among the students, questioning logics among the teachers, and examination patterns among curriculum designers. The question bank is not a learning material but supports self-evaluation. CHRIST(Deemed to be University) electronically archive the past examination questions and databank prepared for future use. A fresh bank is also prepared every year to update the existing bank of questions. A workshop on how to upload/revise questions on the Digital Repository of CHRIST was organised on 10 March 2021 for the 10 newly joined faculty members in collaboration with the IT department of Christ (Deemed to be University).
